

TIRUPATI RUBBER WORKS

Crafting quality polymers since 1980

ABOUT US

In the vibrant city of Ahmedabad India, our story began in 1980 under the name Tirupati Rubber Works. Our humble beginnings were rooted in a modest rubber molding outlet. Over the years, we've undertaken a transformative journey, evolving into an industry leader known for our unwavering commitment to rubber molding and manufacturing.

Our early days were characterized by hard work, dedication, and a commitment to delivering quality products. It was the foundation upon which our enduring legacy was built.

Evolution into Excellence

As time passed, our dedication bore fruit. We expanded our horizons, embraced innovation, and honed our expertise. Today, as we stand tall as a leading and dependable force in the world of rubber and polymer molding and manufacturing.

Our Commitment to You

Our journey is a testament to our commitment to excellence, innovation, and customer satisfaction. We take pride in the trust our clients have placed in us over the years. Whether you're in need of precision rubber or polymer products, you can rely on us to deliver quality that stands the test of time.

Join Us in Shaping the Future

We invite you to be a part of our journey, one that spans over four decades and continues to unfold. Explore our wide range of rubber and polymer solutions, and discover how we can help you meet your unique needs.

MAKE IN INDIA

Our manufacturing facility is more than just a production unit – it is a symbol of our vision for the future. A future where India leads in manufacturing, where sustainable practices are the norm, and where innovation drives progress. We are proud to be part of the "Make in India" initiative and are committed to making a significant contribution to India's industrial landscape.

OUR PRODUCTION FACILITY

Our cutting-edge production facility, where innovation meets excellence. Equipped with advanced automated rubber compression molding machines, state-of-the-art vacuum compression machines, and robust rubber mills and mixers, we ensure superior quality and efficiency in every product. Our comprehensive full lab setup enables rigorous testing and quality assurance, guaranteeing that our rubber molded products meet the highest industry standards. Committed to sustainability and technological advancement, our facility exemplifies our dedication to delivering unparalleled products for diverse industrial applications.

We embody the spirit of the "Make in India" initiative.

LAB FACILITIES

PETROLEUM OIL & GAS

For the past 40 years we have supplied rubber parts used in pumps industry. We offer product range like Rubber Gasket, Rubber Ring, Grommet, Sandgaurd, Rubber to metal bonded parts, Rubber Pressure Cup, Metal Inserted Neck Ring etc. We have supplied our rubber parts in submersible pumps as well as petroleum pumps. Material like NBR, EPDM, FKM etc. is widely used in this industry.

FKM O RINGS

OIL WELL PACKERS

TRW offers a wide range of solutions, including

- O-rings
- Gaskets
- Oil well packer sleeve

We offer a variety of materials for this sector like FFKM, Viton (FKM), HNBR and many others. We have our technical experts, which will help with your material selection and product development advice.

PUMPS AND MOTORS

For the past 40 years we have supplied rubber parts used in pumps industry. We offer product range like **Rubber Gasket, Rubber Ring, Grommet, Sandgaurd, Rubber to metal bonded parts, Rubber Pressure Cup, Metal Inserted Neck Ring** etc. We have supplied our rubber parts in submersible pumps as well as petroleum pumps. Material like NBR, EPDM, FKM etc. is widely used in this industry.

BUTTERFLY VALVE SLEEVES

V SEALS V SEALS

RUBBER TO METAL BONDED PARTS

PHARMA INDUSTRY

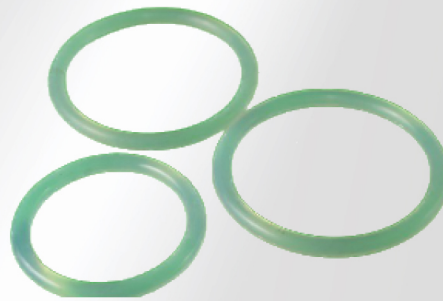

TRW designs and manufactures high-performance rubber molded components, made from FDA-compliant materials, for, pharmaceutical industries which are:

- Custom-made to your application requirements
- Manufactured from the most advanced materials
- Manufactured in line with our stringent quality management system to provide traceability at every stage of the process.

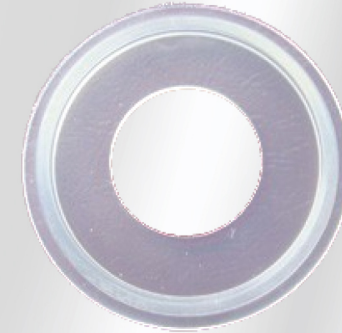

We offer a wide selection of polymers, including Silicone, Perfluoro elastomers (FFKM), Fluoroelastomers (FKM), and Fluorosilicone (FVMQ). Material approvals include FDA and USP Class VI.

SILICONE DIAPHRAGMS

SILICONE O RINGS

T/C GASKETS

BUTTERFLY VALVE SLEEVES

FLUROSILICONE GASKETS

SILICONE CORDS

MATERIALS

What types of materials do we use and manufacture?

TRW works with an extensive selection of polymer types to design, develop, and manufacture the highest performing materials including:

- EPDM

- NBR

- SILICONE

- VITON

- NEOPRENE

- TEFLON

- PTFE

- FLUROSILICONE

- HNBR

- FFKM
